President's Message

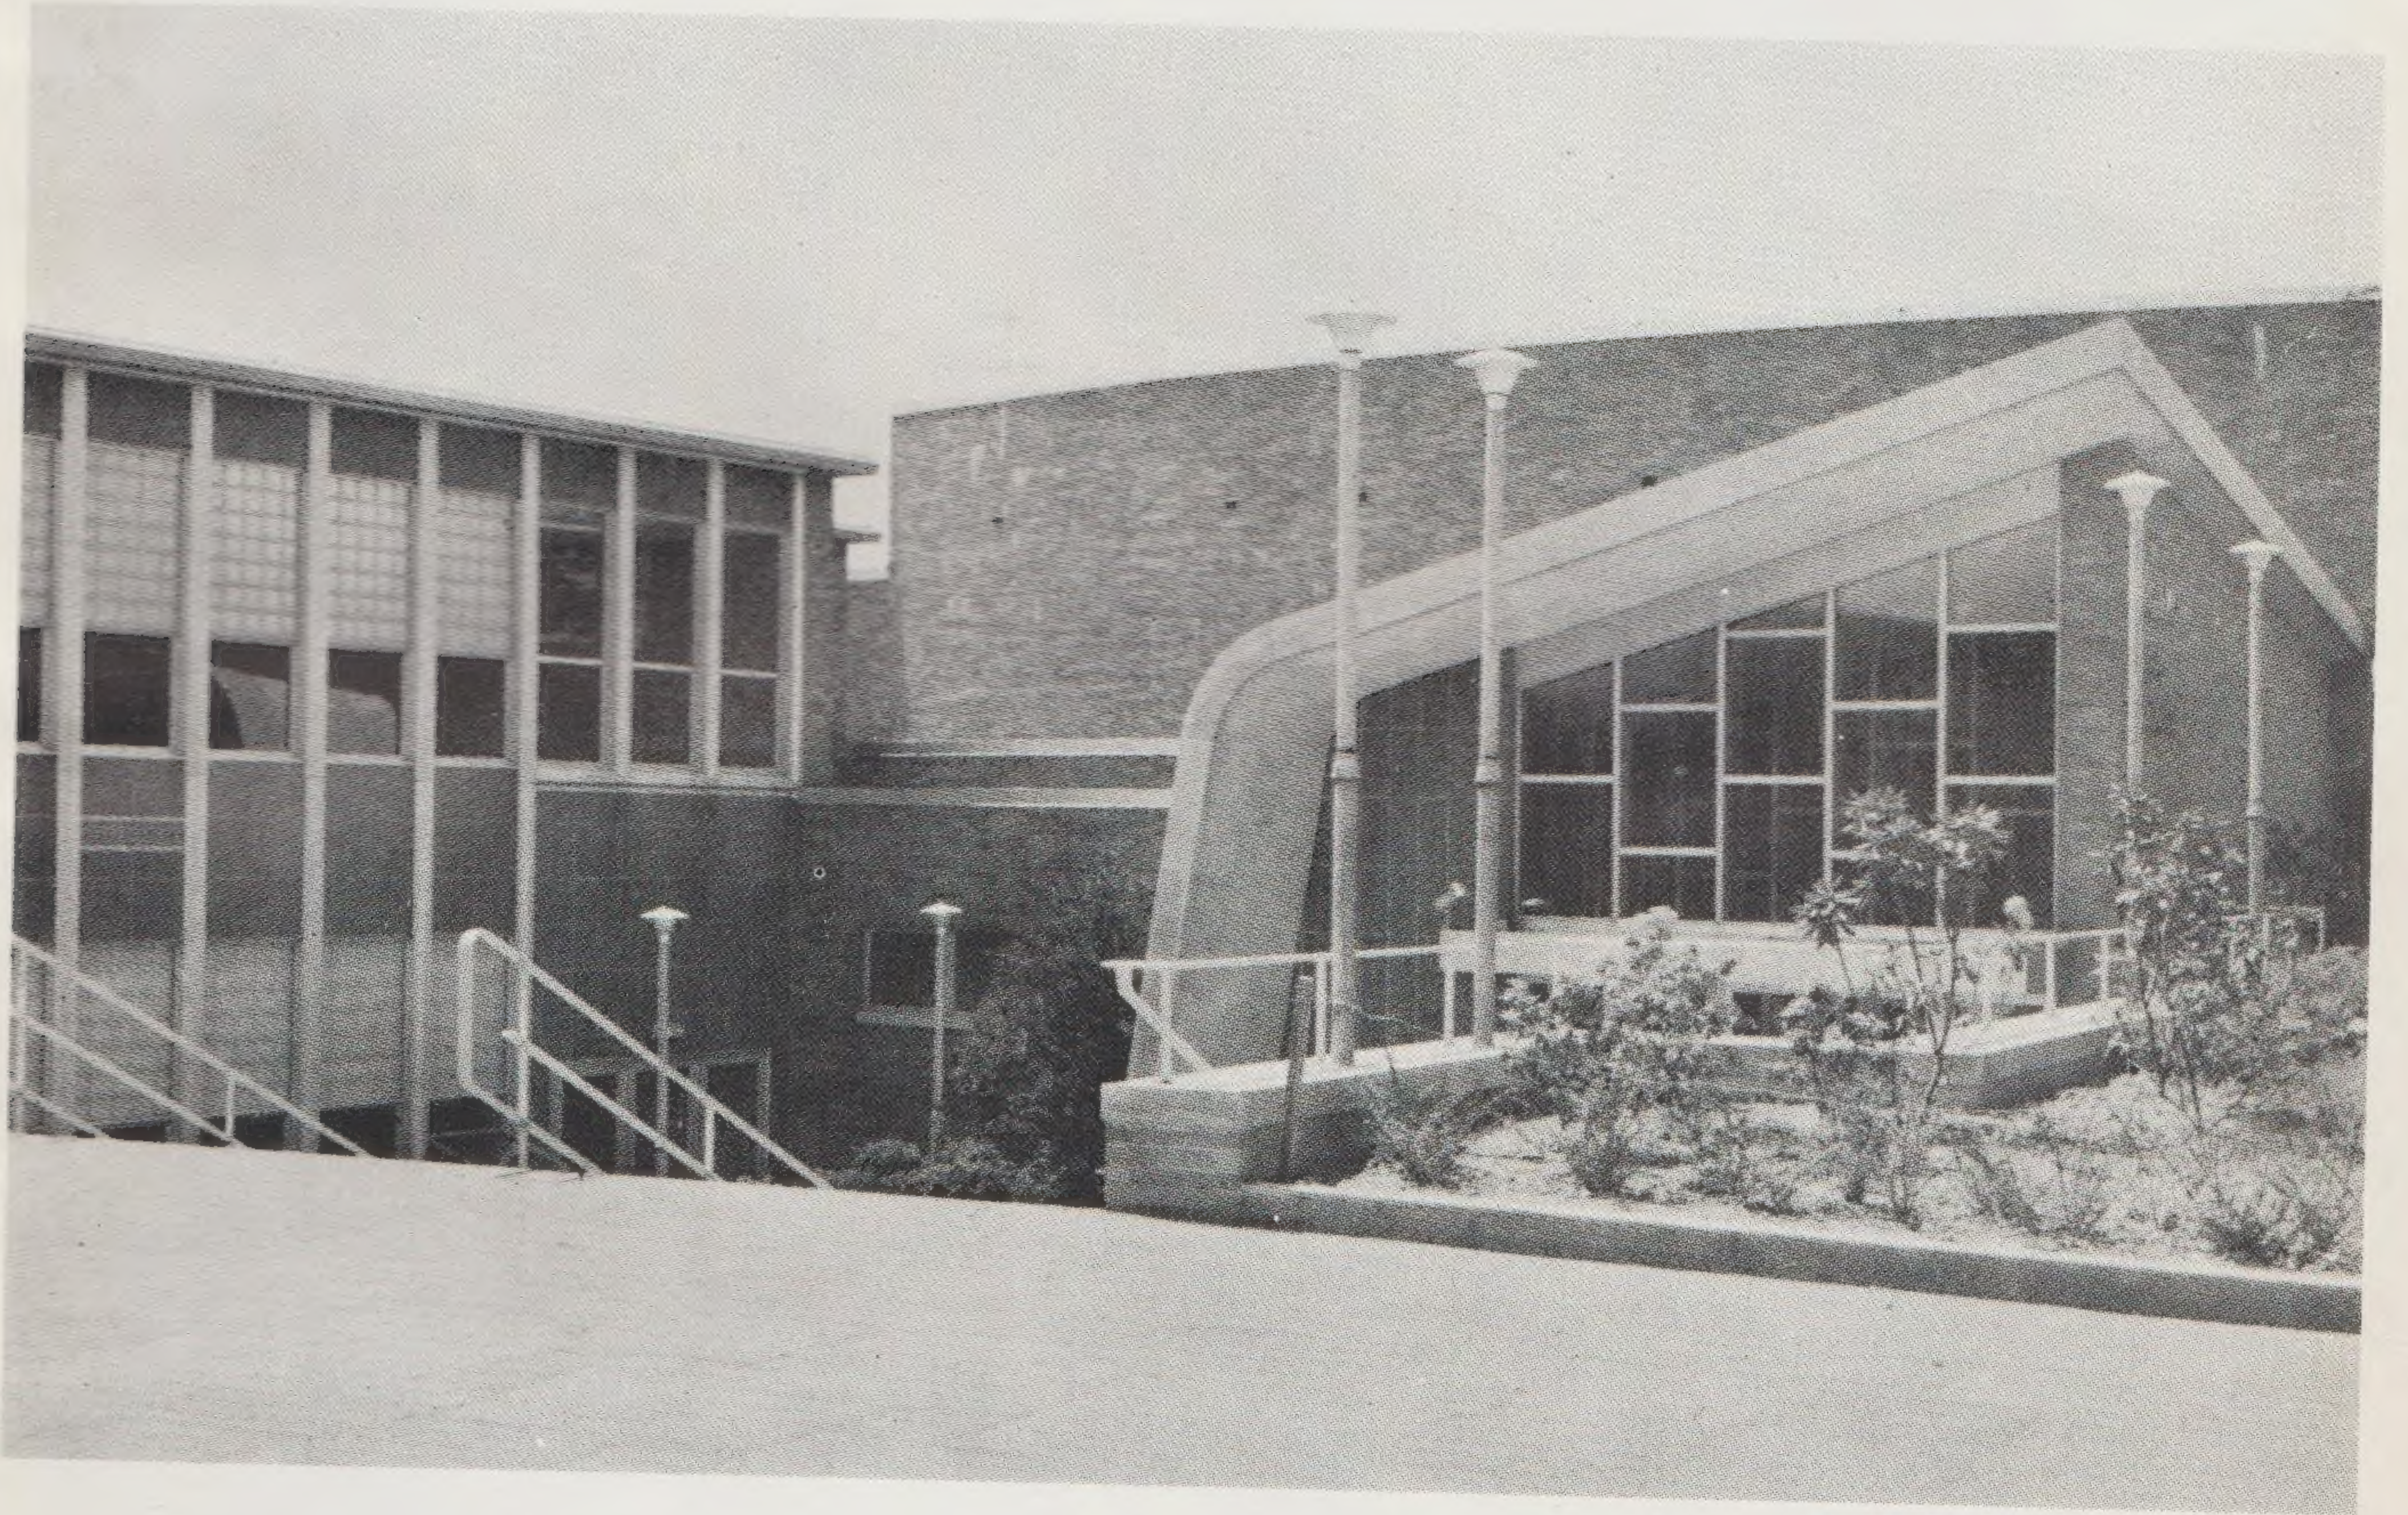

Like the Hawaiian Islands which were formed by volcanic eruptions pushing up through the surfaces of the water, we, the students, must also work our way up to hold important and worthwhile positions in the future. We must study as hard as we can in our next steps of education to obtain and retain our future goal. From the eruptions of life, we have to slowly and patiently build. As the lava made the land, we must make the world.

Louis Fantacone

LIMELIGHT

Broadway Junior High School

Joseph Celiano
Principal

Aloha! This is an endearing term which means both "Hello" and "Goodbye." Although you are leaving us now as the graduating class, I hope that you will also remember that aloha means hello, and recall the happy student days you spent here.

Aloha!

Joseph Celiano

Raymond Baumrind
Vice Principal

When Hawaii became the fiftieth state on July 29, 1959, the dreams of many people were realized. This was accomplished by hard work and achievement. The same things will help your dreams come true. I hope that success and happiness will be the rewards of your efforts.

Raymond Baumrind

Class History

In 1957, about 375 kames (boys) and wahaines (girls) flowed from the lava eruptions of the nearby volcanoes of Ridge, Elliott, Summer Avenue, and Broadway Elementary to the kuleana (homesite), Broadway Junior High School. In a short time they became accustomed to their new surroundings and subsequently participated in the many activities of their kuleana.

Some of the many subjects the malikinis (newcomers) encountered for the first time at Broadway included music, gymnastics, science, art, mathematics, and languages.

A number of the graduating Seniors served the school well in many activities. For instance, the Spring Concert, under the supervision of Mr. Schwartz, Mr. Singer, and Mr. Franco, was assured of success through the untiring efforts and loyalty of the participating seniors. Others who were musically inclined took part in the activities of the band and orchestra.

Some Seniors were actively involved in athletic events. The cheerleaders and the basketball players took part in many games throughout the three year period. Additional athletic prowess was shown by many kames and wahaines in demonstrating their talents in the Junior Olympics held in 1962. Under the able and spirited leadership of Miss Cordasco and Mrs. Monaco, the show went off with military precision. Some of our kames and wahaines had starring roles in the extravaganza. The show ended with a grand march accompanied by the expert school band. Everyone enjoyed it.

A number of kames and wahaines who were interested in science went on a field trip to Stokes Forest. Mr. Johnson, Mr. Vasselli, and other interested teachers took the students to the New Jersey School of Conservation for an exciting weekend. Some went on hikes while others enjoyed dancing (hula). Jollity was balanced with scientific experiences during the trip.

Some of our members were nominated and later inducted into the National Junior Honor Society. Others sought recognition and honor as class officers and in club activities.

Kamekamehea (king) Celiano and Aii (chief) Baumrind with patience and skill guided the molding of the aa (rough lava) into pakukoea (smooth lava) so as to ease our way into the future.

Now as we journey out into the sea around us, we look back upon our fun filled days at Broadway. We give our makalo (thanks) to our administrators and teachers for their help and guidance in preparing us for the future. Now our work is done here (pau ka hana) and we travel into the vast unknown future which lies before us.

Aloha!

Good Bye to Broadway

Poem by Lillian Tate

On this our final day
The twenty-first of June,
We really think it came
A little bit too soon.

For the past three years
Have seemed like days
That now have reached an end.
And we must leave Broadway
As we leave a friend.

In the morning there was homeroom
Where all our classmates met.
And then we went to art class
A time I'll never forget.

Quickly to the gym
Where the basketballs are dribbled,
And up to Mr. Johnson's class
Where no one ever giggled.

Our day is fairly started
And to science we're led,
But when that class is over
We wish we'd stayed in bed!

Finally, on the English
We sit tall, but really "beat,"
Because we know that next is lunch
And we'll finally get to eat.

The memories of climbing stairs
And running at the bell,
And waiting at the lunchroom line
For food prepared so well.

Quickly on to Spanish.
¿Se habla Español?
And then we go to J. B. T.
A useful class for the soul.

Seven periods are now over
And to history is our fate,
To learn about our country's life
And heroes to emulate.

Then at last the day is over.
We stack our books for home.
And rush down to our lockers
To tell our friends so long.

Yes, these were our school days
Spent at Broadway Junior High,
But now that they are over
It's sad to say, "Good Bye."
